

# MISSIONARY WORKERS OF THE NEW EVANGELISATION

We have heard the invitation of Jesus “Come, and follow me”, the reason why we have left everything and stayed with Him, by living in an international Community. In the process we deepen our faith and we learn from Him the science of Love in action, the science of the new evangelization.

To evangelize in a special way, first of all, we commit to live day by day our triple vocations as a virgin, a spouse and a mother in l’Eau Vive in Asia Mission Center.

Prayers, sacraments, and community life revitalize our missionary vocation.

Our charism is inspired from the Gospel of Saint John chapter 4, the encounter of Jesus and the Samaritan woman. “Give me a drink”...If you only knew the gift of God? He will give you the Living Water...” The methods of encounter through l’Eau Vive in Asia activities is our expression of new evangelization: apostolate around the tables, witnessing God’s gift of vocation and love, the modern practice of ora et labora and to be a simple sister to all those who come in our modern abbey’s.

Catechisms and pastoral care of the youth, the street dwellers, the aged, the poor families and visitations are other means of incarnating the missionary life of our Lord Jesus Christ.
